The proverb, "those who live in glass houses should not throw stones," dates back to the union of England and Scotland, at which time London was inundated with Scotchmen. This did not please the Duke of Buckingham, who organized a movement against them, and parties formed, who went about nightly to break their windows. In retaliation, a party of Scotchmen smashed the windows of the Duke's mansion, which stood in St. Martin's Fields, and had so many windows that it went by the name of the Glass House. The duke appealed to the king, who replied: "Steenie, Steenie, those who live in glass houses should be carefu' how they fling stanes."

GARCELON AS A SURGEON.—The Tribune says: It has been reported that after the battle of Antietam, Dr. Hammond of this city, who was then Surgeon-General of the army, was going over the battlefield caring for the wounded, when he encountered Dr. Garcelon, recently Governor of Maine. The operations of Garcelon upon the wounded were so brutal and so unlike those of a physician that Hammond was obliged to remonstrate with him, and to ask him to ask him to leave the battlefield. Hammond, being interviewed by a reporter yesterday, declared the story to be entirely true, and characterized Garcelon as a butcher.

GUNPOWDER MARKS.—Says the London Lancet; Smear the scorched place with glycerine, by means of a feather, then apply cotton wadding; lastly cover with oil silk. In one case the discoloration was very great, the patient looking more like a mummy than a living being. It entirely subsided in a month by the above treatment.

In some parts of Maine huge flocks of geese feed by day in the fields with only a small boy to attend them. Returning home under his charge in the evening, as they march down the roads they drop off by detachments without confusion, and proceed soberly of their own accord to the houses where they lodge.

The first case of cremation in this country was that of the patriot, Henry Laurens, which took place in Charleston, S. C., in December, 1792. His daughter met with a very narrow escape from being buried alive, which led to his desire for the burning of his body.

An English writer states that he was much impressed with the gentleness of American manners. He ought to send his boy to one of our colleges, or try getting out of a crowded depot with two grip sacks when our hackmen are feeling well.

A score of full-born Americans will move three wagon loads of lumber to uncover a poor old rat, where a cash offer of fifty cents each would have no effect.

One of the most trying positions in life is to stand outside a circus and hear the applause going on under the tent. Few there are who can endure it.

Chicago Justice Twenty-five Years Ago.

(Toledo Blade.)

A neighbor who relished the keen wit of the Irish tells us of the following as showing how justice was dispensed (with) in the Garden City a quarter of a century ago, by the celebrated Charley O'Malley, Justice of the Peace on the north side.

The first case which came before his Honor was O'Donnell and others for disturbance at a dance-House on Kizle street. The testimony was gone through with apparently correctly, and the decision (of the Court) was a fine and costs.

O'Malley rose in his dignity, and turning to O'Donnell (and the other offenders) said to the first one next him:

"Tim, have ye'es any money?"
Tim says, "Nah."
"Bryan, have you?"
Bryan says, "Nah."
Terrence—"Have you?"
Terrence says, "Nah."
Patrick—"Have you?"
Patrick says, "Nah."

Then turning to a wild-looking young Irishman, recently from the "ould dart," and probably out on his first spree in America, says:

"Maurice, have ye'es any money?"

Maurice says, "Yis, Your Honor;" to which the Court responded, "well, thin, the foine is on you."

"Call the nixt case."

Ellie Wilton's Dilemma.

There is a tendency to make skirts for street wear narrow and rigid. They are not tied back as formerly, and are sensibly short enough to clear the ground, but they are braced, fastened and shored with strings that a wearer, if once overturned in a gutter, would be as helpless as a cast cow, and would require lifting back to her feet. Something of the kind happened at the Union Square the other night. Miss Wilton, the actress from California, consoled herself for a bad part by wearing several costumes of a stunning character. She is said to have brought away enough bonanza money from the Pacific Coast to indulge in such fancies. One of the suits put her into about the condition of a trussed duck. Hurrying up to the stage from the cramped dressing-rooms underneath, she tripped and fell on the landing.

"Are you hurt?" Stage Manager Parselle asked.

"Oh, no," she answered.

"Then, why don't you get up? Hurry, the stage is waiting," he said.

"I can't;" and she lay passively on her face. "I'm down like a ten-pin; set me up again."

He did.

Admit the Sun.

Don't shut out the sun, even though your carpets suffer a little under his ardent gleam. We are more active under the influence of sunlight—can think better and act more vigorously. Let us take the airiest, the choicest, and sunniest room in the house for our living room—the work shop, where brain and body are built up and renewed—and let us have a bay window, no matter how plain the structure, through which the good twin angels of nature—sunlight and pure air—can freely enter. Dark rooms bring depression of spirits, imparting a sense of confinement, of insolation, of powerlessness, which in chilling to energy and vigor; but is bright rooms is good cheer. Even in a gloomy house, where walls and furniture are dingy and brown, we have but to take down the curtains, open wide the window, hang brackets on either side, set flower pots on the brackets, and let the warm sun stream freely in, to bring health to our bodies and joy to our souls.

THE EXPERIENCE OF MANY.—Said a young husband, whose business speculations were unsuccessful: "My wife's silver tea set, bridal gift of a rich uncle, doomed me to financial ruin. It involved a hundred unexpected expenses, which, trying to meet made me the bankrupt that I am. His is the experience of many others less wise, who do not know what is the goblin in the house working destruction. A sagacious father of great wealth exceedingly mortified his daughter by ordering to be printed on her wedding cards: "No presents except those adapted to an income of $1,000." Said he: "You must not expect to begin in life in the style I am ableby many years of labor to indulge; and I know nothing that will tempt you more than the well-tended, but pernicious gifts of rich friends."

The Supreme Court of Indiana in a recent decision declares that the legal name of a person consists of one christian name and one surname. Any one may have as many middle names or initials as are given to him, or as he chooses to take. They do not affect his legal name, and may be inserted or not in a deed or contract without affecting its validity. Nor does a mistake in the middle initial of a name in a deed in any way effect its validity, according to this decision.

The Edinburg papers describe a monster sugar pan, of Scotch manufacture, the gross contents of which, up to the boiling line, reach 973 cubic feet, or more than 6,000 imperial gallons. It is calculated to boil forty tons of sugar when charged to the boiling line, the time occupied in the process being from four to seven hours, as the quality of the liquor and other circumstances may vary.

HOMES FOR ALL.

In another column we publish an article from the San Jose Mercury, relating to the sale of railroad lands by the Central Pacific and Southern Pacific Railroad Companies at reduced prices, and on terms that will place homes within the reach of the humblest in the land. These corporations propose to sell their lands on the instalment plan, at low rates of interest for deferred payments, a twenty per cent. advance payment being required, the deferred amount to bear an interest of seven per cent. per annum. The purchaser has the privilege of paying for his land in instalments every six months, or in yearly payments, or at the end of five years—as the purchaser may prefer. It is notorious that these railroad lands are among the best and most productive in the State, and if they are placed in the market on the terms proposed, thousands of acres in the foothills of Placer, Nevada, Calaveras, Amador and other flourishing counties, will be transformed into happy homesteads, teeming with life and industry, and adding to the wealth of the State, and extending civilization. It is to be hoped this offer of the railroad companies will be accepted by those anxious to secure homes on their own terms. On most of these lands semi-tropical fruits can be grown in profusion, and these always find a ready market at remunerative prices. We presume the lands owned by the Central Pacific in Placer county are as valuable as any in the State for agricultural purposes, and more so, on account of proximity to market. There are thousands of workingmen, particularly miners, who should avail themselves of this opportunity to provide homes that cannot be wrested from their families in case the husband or father is taken away.

A DEAD DEMOCRAT.—Did you ever see a dead Democrat? Your answer if truthful will be, "Never; that is, hardly ever!" And we take the liberty to inform you that you never will. They are a species that seldom die. The Democratic party has been reported dead and buried on occasions too numerous to mention. Its coffin has been exhibited and its winding sheet prepared, but the lively corpse still rises and roams the political pasture—the biggest bull of the corral. People have a great way of killing other people in imagination. The wish is generally father of the thought, and the thought is like the dream of Carter's Dick—a lie. A dead Democrat would be a singular spectacle. Jefferson said that few die and none resign. And they are the same to-day as when this utterance was first proclaimed by their illustrious founder.—Stock Report.

SAGE FOR MARKET.—Where so many are asking for something they can grow on a part of their land, while their orchards are maturing, it seems a little singular that sage has not been thought of. Few are aware how many thousands of pounds of sage leaves are used in even a small community. Of course we do not mean the bitter sage of the plains, but the domesticated article. Seed can easily be procured and these would produce abundantly. As many as six pickings ought to be had every season. Sage is worth from 20 to 30 cents per pound, and will, at the lower price, handsomely pay for growing and transportation. Who will be first to try it?—Colton Semi-Tropic.

There are more geese now at Tulare lake, says the Visalia Delta, than we have ever before known at this season of the year. When we were there a few days ago, the water near the land was covered with gray geese as far as the eye could reach up and down the shore. At a distance they presented the appearance of an immense snow bank; and when they rose in thousands from the water, at one time, the flapping of their wings sounded like the heavy surf of the ocean.

A rumor is current that the new company, in opposition to the Pacific Mail, is about to be organized by several New York capitalists, who propose to equip the line with five first-class new steamers, capable of averaging not less than 13 knots per hour, making the trip between New York and San Francisco in 20 days.

Congressman Berry has introduced into the house, by request, a bill to prevent the obstruction of homestead and pre-emption settlers, the purport of which is to the effect that no man can hold by possessory title more than 160 acres of the public lands of the United States.

There are now in the Nevada State Prison 147 convicts. Twenty for life, twenty for over twenty years, forty between ten and twenty years, and the remainder ranging under ten.

The House Committee on Ways and Means, eight to three, decided to place on the free list "all manufactured paper, wood, flax, straw and all other fibrous plants fit for use for the manufacture of papes."

The Silver City Times says D. O. Mills and H. M. Yerington are going over the line of the Bodie extension this week, and that the feeling against the extension is getting stronger in Mason Valley.

The balance of trade in favor of the United States is rapidly falling off. During the twelve months, ending with February, it was $92,000,000—a decrease of one-third.

The Chinese Government will probably shortly claim Macao from the Portuguese.

NEW MINING BILL.

Senator Newman has introduced the following bill to regulate the working of mines. The first four sections are as follows.

Section 1. Whenever a mining claim is so situated that in order to work and develop the same it becomes necessary to run a tunnel, drift, shaft or open cut through or into another claim, the owners of the first-mentioned claim shall have the right to excavate a tunnel, drift, shaft or open cut through or into such other claim; provided that in so doing said tunnel, drift, shaft or open cut does not interfere with any existing works or improvements of such other claim, or interfere with or prevent the reasonable working of such other claim while the said tunnel, drift, shaft or open cut is being run or excavated.

Sec. 2. If, in the excavation of such tunnel, drift, shaft or open cut, any rock, earth or gravel which contains mineral sufficient to pay for working is taken out of such other claim, it must be carefully worked or washed so as to extract the mineral therefrom, and such mineral must be delivered to the owner of such other claim, or if the owner of such other claim desires to work or wash such gravel, earth or rock himself, and provides a convenient place for depositing the same, it shall be so deposited for the use of the owner of such other claim.

Sec. 3. Whenever it becomes necessary for the owner of such other claim, while engaged in the usual and customary and necessary working of his claim, to destroy such tunnel, drift, shaft or open cut, or any part of either, he may do so, but if he does so, the person who made the same, or his successor in interest, in such event, may make another tunnel, drift, shaft or open cut, upon the same terms and conditions that the first was made, and subject to the same limitations and restrictions that the first was made.

Sec. 4. Whenever it becomes necessary to the development of a mining claim to drain the water therefrom, the owner of the same may run a tunnel, drift or open cut, or sink a shaft into another claim for that purpose, provided a convenient method of draining cannot be obtained through his own claim; but such tunnel, drift, shaft or open cut shall be made upon the same terms and conditions, and subject to the same rights and limitations as expressed in preceding sections of this Act.

The remainder of the bill provides for dumping debris upon adjoining claims, changing routes of ditches, and a number of other matters of great importance to miners.

AN INGENIOUS INVENTION.—Matt Riehm, a well-known machinist of this city, has invented a very neat and effective improvement on a common door-key which renders it impossible for a burglar to use said key in opening a lock by taking hold of it with nippers from the outside. All there is about it is that the end of the key revolves independent of the key itself. This being the case the burglar may turn it around a thousand times and the key is not moved. The only alteration necessary in a lock is to place the key horizontally instead of vertically as at present, when the key cannot be pushed back out of the lock. Mr. Riehm has applied for a patent. The invention is so simple that the only wonder is that it has not been hit upon before, but as Mr. Riehm is going to be in the field for Chief of Police he has probably been turning his attention to matters of this kind.—Virginia Enterprise.

FIREMEN.—Senator Hill has introduced a bill regulating volunteer fire companies. It allows one company to each one thousand inhabitants, to consist of not less than 30 nor more than 65 members. It allows $2 to each member, and exempts them from jury duty.

Pool of Mariposa, has introduced another bill as follows: The officers and members of unpaid fire companies regularly organized, and exempt firemen, are entitled to the following priveliges and exemptions, namely: Exemption from payment of poll tax, road tax and head tax of every description, exemption from jury duty, exemption from military duty except in case of war, invasion or insurrection.

LAND AT REDUCED RATES.—According to the Sacramento Bee the Central Pacific and Southern Pacific Railroad Companies have decided to adopt a new plan of selling their lands. They have greatly reduced the prices, and will on the installment plan at seven per cent interest per annum. Twenty per cent of the purchase money must be paid down, and the balance can remain for five years, or it can be paid for in yearly or in half yearly installments, as purchasers may elect.

This is a good idea. Both the Companies own large tracts of good lands, and if they will carry out this very liberal plan, no industrious citizen of California need be long ithout a few acres of land, sufficient to produce a livelihood for himself and his family by prudent and intelligent management.—San Jose Mercury.

NEW PATENTS.—Dewey & Co's Scientific Press Patent Agency has received official notice of the issue of the following patents to Pacific Coast inventors, for the week ending March 23, 1880:

225,741, W. T. Brown, Stockton, Cal., car truck; 225,753, T. D. Isbell, Uriah, Cal., middlings purifier; 225,838, A. H. Johnson, Woodland, Cal., shoe for grain threshers, etc.; 225,756, F. Kortick, S. F., snap hook; 225,763, B. M. Watts Phoenix, Arizona, baling press; 225,776, W. Wilson, Oakland, Cal., valve for sewer traps, etc.

Upon application of Tilden's counsel, the trial of the Tilden income suit in Supreme Court has been postponed until November.

The Virginia and Truckee engineers are receiving withrawal cards from the Mechanics' Union.

A sham battle, participated in by 19,000 volunteers, took place on Monday at Brighton, England.

Big Suit.

SAN FRANCISCO, April 2.—Complaint in the case of Rodman M. Price, ex-Governor, of New Jersey, against Squire P. Dewey for $1,000,000 was filed this afternoon. It charges that Dewey, in collusion with other parties in 1853, defrauded complainant of twenty-one pieces of real estate, with rents, etc., in San Francisco.

It is rumored on streets that Kearny was dead, but there is nothing in it.

Death of Mrs. Col. Foreman.

STOCKTON, April 2.—Mrs. Foreman, wife of Col. Foreman, ex-Secretary of State during Governor Weller's Administration, and Colonel of Fourth California Infantry, died of heart disease this evening.

The New York Mail states that it was the Hon. L. P. Morton, of New York, who insured the success of the generous project of loading the war ship Constellation with supplies for the starving Irish, by offering to pay for one-quarter of the cargo. Mr. Morton is a Republican member of Congress, and one of the most liberal and philanthropic gentlemen in the country. His act is one of pure disinterestedness—like all of his thousand and one offerings to charity. By the way, this reminds us that Mr. Tilden has not yet given $1 to the cause of Ireland. Bar'ls for personal ambition, but not a gill measure for a starving people.—Troy Times.

MAP OF BODIE MINING DISTRICT

NOTICE TO THE PUBLIC:

I have transferred my interest in the Map of Bodie Mining District, when complete, to Mr. Edward Eysen, who will take charge of the undertaking with a view of its immediate publication. All applicants for showing mining claims on said map must be made to me without delay, since I have but a limited time at my disposal before delivering the map to the publisher.

C. L. ANDERSON.

Bodie, California, April 1, 1880.

Referring to the above notice, I desire to inform the public of Bodie that this map, the charge of which I am about to assume from Mr. C. L. Anderson, will be adorned and illustrated in an elaborate manner, in order to enable me to carry out this work successfully. I trust that those interested in the general welfare of this mining district will aid me by according their liberal patronage.

EDWARD EYSEN.

THE CHRONICLE.

BODIE, APRIL 3, 1880.

The CHRONICLE Office is on the second floor of "Goodson's Building," east side of Main street, between Standard Avenue and Green street.

JOB PRINTING.—Job printing of the finest description will be furnished at this office at Sacramento prices.

LOCAL INTELLIGENCE.

"Why is it that that model typo-grapical nastiness, the CHRONICLE failed to make its appearance hereabouts this morning? Have the "lady compositors" tired of working at starvation rates?"

We doubt if there is a town in the whole country where Journalism is conducted so outrageosly as by our cotemporaries in Bodie. The above is one of the mean and contemptible items in relation to the CHRONICLE. For the past month, daily, one or all of them have kept up a continuous fire upon us. The people of Bodie know that financially they are rotten to the core, that their credit is at a fearful discount; that with merchants, hotel and restaurant keepers there is an odium attached to all connected with the offices. Simply because the Standard did not get the CHRONICLE of yesterday morning it meanly utters the above. We might with equal propriety say the same, as we have often failed to receive the Standard at our office

SUPERIOR JUDGE.—The following telegram, received last evening by M. P. Wolf from C. A. Richardson, shows that Mono is likely to have an additional Superior Judge, to reside in Bodie.

SACRAMENTO, April 2.—The bill passed the Assembly to-day unanimously."

This, undoubtedly, will ensure its passage by the Senate and approval by the Governor. Too much credit cannot be bestowed upon Assemblyman Wasson and Mr. Richardsons, for their good efforts in this direction.

ANOTHER HYDRANT.—C. H. Kilgore, of the Union Market, is introducing the water into his building for the purpose of running the machinery connected with his establishment. A hydrant is to be placed on the sidewalk for fire purposes. This is a move in the right direction which should be followed by other property owners.

SNOW.—A snow storm commenced on yesterday morning about 1 o'clock which continued till 10 o'clock the same morning, leaving about four inches of snow upon our streets. Snow, at stated intervals, during the past Winter has been acceptable to our citizens, but a high disgust prevailed yesterday. "Give us a rest."

STALLING.—The continued seepage around the Water Company's pipes, still undermines the streets in their immediate neighborhood. A six horse wagon went to bottom this afternoon on lower Main street. The driver, after partially unloading, managed to proceed.

FINE CONFECTIONARY.—Mrs. Swan has opened a confectionary store in Abbot's building, on Mill street, between Standard Avenue and Mill street. She intends to keep a fresh supply at all times at reasonable prices.

I. O. O. F.—On Monday, April 26, the Bodie Lodge will celebrate the sixty-first anniversary of the Order by a procession and appropriate exercises, and a Grand Ball.

DIVINE SERVICE.—Rev. G. B. Hinkle will hold divine services in Odd Fellows' Hall over Page, Wheaton & Co's store, to-morrow at 11 o'clock A. M. and 7:30 o'clock P. M. All are cordially invited to attend.

WARD'S BUILDING.—H. Ward has commenced the erection of his building in the lot adjoining, Miners' Union Hall on the north.

MASQUERADE BALL.—A Grand Masquerade Ball will be given at McAlpin's Concert Hall this evening. Admission fifty cents.

LINE DOWN.—The telegraph line being down accounts for our meager dispatches this morning.

QUIET.—The Justices' Courts were quiet yesterday—so far as criminal business was concerned.

RELIGIOUS.—Divine Service is held in Miners' Union Hall every Sunday at 10 A. M., by Rev. I. M. Cassin, Catholic Priest.

JUMPING.—Several mines in Mammoth have lately been jumped.

Legislative

New bills were introduced and referred as follows in the Senate:

Amending section 688 Code of Civil Procedure, providing for the attachment of franchises belonging to individuals.

Amending sections 1,044 and 2,8[illegible] of same Code for the attachment of franchises belonging to corporations.

Joseph Jefferson will, it is said, permanently retire from the stage at the end of this season, in order to give his entire attention to painting. His season thus far has been very profitable.

The Portland Press says that the results of the town elections in Maine indicate that the State will be Republican next September by from 10,000 to 20,000 majority.

On Saturday last a heavy snowslide occurred near Emigrant gap, Central Pacific, and snowsheds were crushed, and trains delayed.

A newspaper to advocate NativeAmerican doctrines is shortly to be started in San Francisco.

James Gorden Bennett's Muscadine won the Park Hurdle handicap plate at the race on Tuesday.
